Aerial Rigging Overview - Ceiling

Attach aerial rigging directly to the ceiling using a ladder or a scissor lift. This uses a beam clamp or span set loop attached to a structural feature that easily attaches to an aerial apparatus. Pulleys can be used in certain situations to switch out equipment. Best option for indoor performances for venues with exposed structural beams.

Aerial Rigging Overview - Freestanding Rig

For use indoors and outdoors. This triangular structure has three different height settings and can be set-up within 15 minutes.

Aerial Rigging Overview - Lollipop Lyra

Freestanding aerial hoop for indoor and outdoor use.

Below are the standard dimensions for our mats:

Standard mat size: 8ft x 4ft x 4in

Expanded coverage mat size: 8ft x 8ft x 4in

Short height mats: 6ft x 4ft x 2in

South Dakota Aerial & Arts has a variety of music and AV options that are available for use during our performances. The usage of AV items must be discussed during contracting, as use of these items may incur an additional cost for the performance.

- 2 portable, high-volume speakers
- 1 portable power supply
- 4 Large LED lights

Rigging Audits:

Curious what aerial options are available for your venue. Request a rigging audit by emailing sdaerialarts@gmail.com. We will work with venue staff to determine available performance options, and any rigging logistics.

Performance Testimonials

★★★★★ Fran R. | Health Connect

“SD Aerial & Arts did an excellent performance at the 2023 Health Connect Festival! The attendees of all ages loved the variety and complexity of the aerial work. We look forward to having them perform again!”

★★★★★ Kate P. | Reliabank

“If you are looking for entertainment for an event, SD Aerial Arts goes above and beyond in every aspect. They also offer classes and their coaches are all amazing.

I booked a one hour show with them for a company Christmas party and could not be more pleased with how well everything went. The owners Katie and Ashley are so great to work with and made things so much easier when it came to planning. They even worked directly with the venue I had booked which was a great help when it came to questions I otherwise would not have been able to answer.

The amount of rave reviews I received from company employees following the performance was unbelievable. The show was absolutely incredible. There were many people in the crowd that were cheering, hollering, and even dancing during most of the show.

SD Aerial Arts is definitely a big reason that our Christmas party is bound to be talked about for a long while. I can't even begin to thank them enough for providing our entertainment.”

★★★★★ Kady W. | Festival of Cultures

“I recently organized a large community festival with over 12,000 attendees. [They were] by far one of the most popular acts we had that day, and I received many compliments on their unique showcase of skills. I would highly recommend booking them for any community event or private party to add an element of fun!”

★★★★★ Cassia M. | Look's Market

“They were fantastic to work with! With planning an event, Katie made it easy and organized. There's a level of customization to their performances. The willingness to accommodate a situation/venue and at the same time get excited about ideas took the stress out of planning an event. There were performances everyone stopped and watch. Captivating, but relaxing and perfect for event on a summer day to sit in the grass. The juggler was also a fun addition! The interaction with kids put a huge smile on my face! I can't wait to work with this group again!”
